Petition: Road Closures in South Northamptonshire

To the House of Commons.

The petition of residents of South Northamptonshire,

Declares that that there have been recent, uncoordinated road closures at very short notice with poor signage on the M1 at J15, J15A, A508, A5, A43, B4525, A422 and many other B and C roads; notes that residents have contributed to many planning consultations in recent years on developments such as HS2, SEGRO Logistics Park Northampton and the unwelcome warehousing proposals on the AL sites; further declares that South Northamptonshire has taken an excessive amount of new development where local interests have been overlooked, in favour of the national interest.

The petitioners therefore request that the House of Commons urge the Government to require better coordination between stakeholders, including developers, National Highways, and local councils, when closing roads in order to relieve local residents of their misery.

And the petitioners remain, etc.
